Our Business

Vanomet is one of the world's largest independent physical traders of finished and semi-finished steel products. In addition, the Group is focused on the trade of ferrous scrap, raw material, non-ferrous refined metals, concentrates and ores of base and precious metals, including related by-products, as well as selected oil products.

Environmental Stewardship

Social Responsibility

Governance

We aim to embed environmental stewardship in everything we do. We believe we have a responsibility to minimize the energy, carbon, water and waste impacts of our business and recognize that these impacts occur not just in the daily operations of our portfolio but also through our entire value chain. As a result, we strive to reduce environmental impacts across the full life cycle of our trades and our corporate operations.

A deep commitment to social responsibility is core to who we are as a company. We believe people are at the heart of our business and take pride in our outstanding work culture. We strive to be an optimal employer to our workforce, as well as a valued partner to our stakeholders and communities.

We view good governance as essential to creating and preserving value for our shareholders and other stakeholders. This includes a sound approach to corporate governance that complies with all applicable laws, rules, regulations and policies as well as unwavering adherence to our values.
